

Last month my mother had to put her 12 year old lab, Penny, to sleep as she was very ill. As a matter of fact, she adopted Penny 12 years ago from the Marion County Animal Shelter. The next day I brought my mother to your center and she immediately fell in love with Iris (the name you gave her) which we kept.

Iris has been a pure delight and being spoiled by Mom. I thought I would share a couple of pictures with you to add to your photo album. The first picture is Iris looking at some school children passing by. The 2nd one is Iris taking over Mom's lift recliner.

Thank you very much for making it possible for my 81-year old mother to be happy with her new baby.

Sincerely,

Carol Reese
