

Adapted Toy Collection

On October 27, 2008, a collection of “adapted toys” will be available for checkout from Headquarters – Ocala Library and the Reddick Public Library. These public libraries will loan toys to children or youths with disabilities, their parents, teachers, or therapist.

This special toy collection includes specially adapted books for children, wooden puzzles, and other toys for special needs children.

All libraries in the Marion County Public Library System will have a complete list of the materials available for check out. The list will be located at the Reference Desk. Ask a librarian for additional information.
