ACS DEMOGRAPHIC AND HOUSING ESTIMATES

2011-2015 American Community Survey 5-Year Estimates

**Note:** This is a modified view of the original table.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

**Tell us what you think.** Provide feedback to help make American Community Survey data more useful for you.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Subject	Marion County, Florida	
	Estimate	Percent
<b>SEX AND AGE</b>		
Total population	336,811	336,811
Male	161,696	48.0%
Female	175,115	52.0%
<b>AGE</b>		
Under 5 years	16,836	5.0%
5 to 9 years	18,419	5.5%
10 to 14 years	16,936	5.0%
15 to 19 years	17,668	5.2%
20 to 24 years	18,059	5.4%
25 to 34 years	33,924	10.1%
35 to 44 years	34,124	10.1%
45 to 54 years	42,330	12.6%
55 to 59 years	22,179	6.6%
60 to 64 years	24,300	7.2%
65 to 74 years	51,090	15.2%
75 to 84 years	30,685	9.1%
85 years and over	10,261	3.0%
Median age (years)	48.2	(X)
<b>AGE AND SEX</b>		
18 years and over	273,380	81.2%
21 years and over	262,474	77.9%
62 years and over	106,668	31.7%
65 years and over	92,036	27.3%
<b>AGE AND SEX</b>		
18 years and over	273,380	273,380
Male	129,212	47.3%
Female	144,168	52.7%
<b>AGE AND SEX</b>		
65 years and over	92,036	92,036
Male	42,858	46.6%

Subject	Marion County, Florida	
	Estimate	Percent
Female	49,178	53.4%
RACE		
Total population	336,811	336,811
One race	329,318	97.8%
Two or more races	7,493	2.2%
One race	329,318	97.8%
White	275,115	81.7%
Black or African American	43,498	12.9%
American Indian and Alaska Native	1,166	0.3%
Cherokee tribal grouping	243	0.1%
Chippewa tribal grouping	0	0.0%
Navajo tribal grouping	0	0.0%
Sioux tribal grouping	20	0.0%
Asian	5,059	1.5%
Asian Indian	1,870	0.6%
Chinese	720	0.2%
Filipino	957	0.3%
Japanese	81	0.0%
Korean	325	0.1%
Vietnamese	444	0.1%
Other Asian	662	0.2%
Native Hawaiian and Other Pacific Islander	122	0.0%
Native Hawaiian	12	0.0%
Guamanian or Chamorro	95	0.0%
Samoan	9	0.0%
Other Pacific Islander	6	0.0%
Some other race	4,358	1.3%
Two or more races	7,493	2.2%
White and Black or African American	2,361	0.7%
White and American Indian and Alaska Native	1,597	0.5%
White and Asian	1,114	0.3%
Black or African American and American Indian and Alaska Native	76	0.0%
Race alone or in combination with one or more other races		
Total population	336,811	336,811
White	281,510	83.6%
Black or African American	46,887	13.9%
American Indian and Alaska Native	2,942	0.9%
Asian	7,036	2.1%
Native Hawaiian and Other Pacific Islander	454	0.1%
Some other race	5,869	1.7%
HISPANIC OR LATINO AND RACE		
Total population	336,811	336,811
Hispanic or Latino (of any race)	39,313	11.7%
Mexican	8,411	2.5%
Puerto Rican	17,946	5.3%
Cuban	3,662	1.1%
Other Hispanic or Latino	9,294	2.8%
Not Hispanic or Latino	297,498	88.3%
White alone	243,982	72.4%
Black or African American alone	41,910	12.4%
American Indian and Alaska Native alone	996	0.3%
Asian alone	4,980	1.5%
Native Hawaiian and Other Pacific Islander alone	67	0.0%
Some other race alone	436	0.1%

Subject	Marion County, Florida	
	Estimate	Percent
Two or more races	5,127	1.5%
Two races including Some other race	462	0.1%
Two races excluding Some other race, and Three or more races	4,665	1.4%
Total housing units	163,687	(X)
CITIZEN, VOTING AGE POPULATION		
Citizen, 18 and over population	264,487	264,487
Male	124,870	47.2%
Female	139,617	52.8%

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

For more information on understanding race and Hispanic origin data, please see the Census 2010 Brief entitled, Overview of Race and Hispanic Origin: 2010, issued March 2011. (pdf format)

While the 2011-2015 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
